

ACCESSIBILITY AUDIT & TESTING

# Pre-release SaaS Accessibility Audit

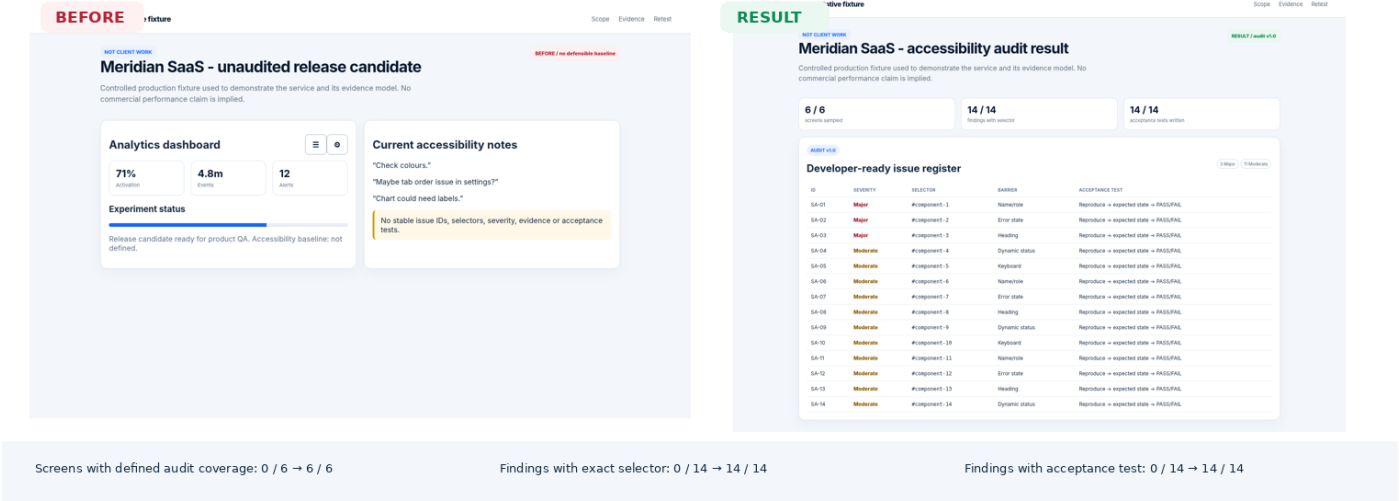

Representative audit engagement showing what a product team receives before any remediation starts: sampled coverage, evidence, severity, selectors and acceptance tests.

|                  |                                                                                                                |
|------------------|----------------------------------------------------------------------------------------------------------------|
| PROJECT          | Meridian Analytics                                                                                             |
| PRODUCTION MODEL | 5 business days                                                                                                |
| STACK            | React-style SaaS dashboard fixture                                                                             |
| SCOPE            | 6 screens + 2 critical user journeys                                                                           |
| TESTING          | Keyboard, form semantics, landmarks, dynamic-status checks, automated DOM assertions, manual acceptance script |

|       |                                            |                                        |
|-------|--------------------------------------------|----------------------------------------|
| FOUND | RESOLVED                                   | REMAINING                              |
| 14    | Audit output - remediation<br>not included | 14 prioritised findings<br>handed over |

Pre-release SaaS Accessibility Audit

Meridian Analytics · 5 business days · 6 screens + 2 critical user journeys

# Measured change in the included representative fixture

|                                     |         |                      |
|-------------------------------------|---------|----------------------|
| Screens with defined audit coverage | 0 / 6   | 6 / 6                |
| Findings with exact selector        | 0 / 14  | 14 / 14              |
| Findings with acceptance test       | 0 / 14  | 14 / 14              |
| Major blockers isolated             | Unknown | 3                    |
| Release baseline                    | Absent  | Versioned audit v1.0 |

## BOUNDARY OF CLAIM

These measurements are generated from the controlled artifacts packaged with this case. They are not claimed conversion, revenue, legal-compliance or historical client-performance figures.

## Handover package

- Manual-audit case-study PDF
- 14-row issue register
- Screen/journey sampling map
- Evidence screenshots
- Acceptance-test column
- Developer handover board

### Production boundary

The agency owns the client relationship, timeline and final presentation. SYNTHESIS owns the agreed specialist production and evidence. Scope, exclusions, client-contact boundaries and limitations are written into the work order before delivery.
